Subject: Data Collection for the Tobacco & Health Trust Fund Draft RFP

Tobacco & Health Trust Fund Board Members,

At the last board meeting members agreed to research and gather information on tobacco related services, issues and concerns for review and discussion as we begin to develop a draft RFP (board's recommendation for disbursement of over \$6 million in the coming year). This topic will be the major focus of the July 22, board meeting. Please review the list below and forward all responses to me by July 8. I'll compile and forward all material for your review prior to the July meeting.

Department of Public Health – cost analysis of the Quitline, NRT, Counseling and Cessation Programs, data on utilization of these services and the rate of recidivism

Department of Education – program description, evaluation data and cost of the CDC school project.

Department of Mental Health & Addiction Services – data on targeting individuals with psychiatric or similar illnesses.

Pat Checko – information on counter-marketing campaigns and benchmark data used in the MA and New York models.

Please feel free to forward any other pertinent information in preparation for our discussion on July 22.

Thank you in advance for your assistance.

Pam
